Quick Manual

NB-AC-90A

How to use:

Step 1:
Choose the correct connector for your laptop (notebook) from the 11 connectors included in the package.

Step 2:
Connect the connector of your selection to the output terminal of the charger, making sure to insert it fully. (see the figure below)

Step 3:
Plug the power cord into the charger, and connect it to the power source. The power indicator on the charger should light up. Congratulations, your charger is ready for use.
